Introduction

Thank you for your interest in the position of Head of Procurement & Contracts for the MetroLink Programme in Dublin with Transport Infrastructure Ireland (TII).

This is an exciting opportunity to be part of the leadership team on the largest ever transport infrastructure project undertaken in Ireland.

MetroLink is a transformative piece of public transport infrastructure and will be Dublin's first metro railway. The system will offer a high-capacity, high-frequency metro railway with 16 new stations from Swords to Charlemont. It will interlink with multiple transport networks, including Dublin Airport, Irish Rail, DART, Dublin Bus, and Luas, promoting a seamlessly integrated transport experience for the Greater Dublin Area.

The majority of its 19km route is underground, marking a paradigm shift for Irish public transport. Upon launch, MetroLink will provide trains every three minutes during peak times, with expected annual ridership of 53 million passengers, providing unprecedented convenience of travel to passengers.

The Head of Procurement & Contracts will serve as the designated representative of TII in overseeing all procurement and contractual operations within the supply chain for the MetroLink programme.

Your responsibilities will include spearheading the strategic advancement of procurement practices, with the aim of optimising cost-effectiveness and ensuring adherence to EU regulations. This will be achieved through fostering best practices throughout the programme and enhancing capabilities across the national market.

This Candidate Information Document will introduce TII and give some insight into its strategic priorities, values and mission. It will detail the Head of Procurement & Contracts role, main duties and responsibilities, the person and key competencies required. This document will also detail eligibility criteria for this post, provide an overview of the principal conditions of service and the recruitment process. One of the main objectives of this document is to provide insight into TII, the Dublin MetroLink Project and the expectations of the new Head of Procurement & Contracts.

Scheme Overview

MetroLink is a transformative piece of new public transport infrastructure, the first of its kind in Ireland. It will comprise a high-capacity, high-frequency, modern and efficient metro railway, with 16 new stations running from Swords to Charlemont. The alignment will link Dublin Airport, Irish Rail, DART, Dublin Bus and Luas services and create a fully integrated public transport network for the Greater Dublin Area (GDA).

As well as linking major transport hubs, MetroLink will connect key destinations including Ballymun, the Mater Hospital, the Rotunda Hospital, Dublin City University (DCU) and Trinity College Dublin (TCD).

When MetroLink operations commence there will be trains every three minutes during peak periods. This can rise to a service every 90/100 seconds by 2060 if required. The system will be capable of carrying up to 20,000 passengers per hour in each direction. For comparison, current Luas Green Line services can carry circa 9,000 passengers per direction per hour.

A short video on the programme can be found here: <https://vimeo.com/730404075>

When completed, passengers will be able travel from Swords to Dublin city centre in approximately 25 minutes and it is estimated that MetroLink will carry up to 53 million passengers annually. It will change the way people travel – and how people live.

Given the nature, scale, and complexity of the MetroLink Project, the MetroLink Directorate organisation structure and shape will need to be agile to the requirements of the delivery of the Project.

Governance

The Government's Public Spending Code (PSC) for Public Transport Capital Projects is the overarching governance framework for the Metrolink Programme. Under the PSC, TII as Sponsoring Agency is responsible for the delivery of the Metrolink Programme.

The National Transport Authority (NTA) has overall responsibility for the Metrolink Programme and is an Approving Authority. As this Programme has an estimated capital cost in excess of €200 million, the Government is the ultimate Approving Authority for key decision gates with NTA performing the day-to-day role of the Approving Authority. TII is subject to NTA's Project Approval Guidelines.

The MetroLink Preliminary Business Case prepared by TII was approved by the NTA

Board for submission to the Department of Transport (DoT) and onwards submission to Department of Public Expenditure and NDP Delivery and Reform (DPENDR) for review.
